## ABOUT ME

As a cybersecurity enthusiast, I'm passionate about exploring cybersecurity technologies, threats, and defenses. I enjoy learning

about security tools, ethical hacking, and protecting systems from vulnerabilities. I also worked as a part of a team and on my

own. My drive focuses on continuous education and hands-on experience securing networks and data.

## EDUCATION

Bachelor of Science in Computer Science

University Of Agriculture, Faisalabad

2020-2024

Intermediate with Computer Science (ICS)

Punjab College

2018-2020

## SKILLS

## CERTIFICATIONS

Linux By Offsec

## PROFESSIONAL EXPERIENCE

Bug Bounty Hunter

HackerOne

Bug bounty programs reward individuals for finding and reporting

security vulnerabilities in software or systems. Participants help

improve cybersecurity by responsibly disclosing bugs in exchange

for monetary rewards or recognition.

Web Development Intern

code-cradle Technologies

Develop web applications using HTML, Tailwind, and Javascript.

Gather requirements, design interfaces, and implement backend

functionality

Cybersecurity Intern

Prodigi infosec

Learn defensive technologies and tools to protect web applications and cloud infrastructure and offensive application penetration testing methodologies to identify vulnerabilities. Understand cloud security basics, including risks, threats, best practices, and compliance, to effectively secure cloud-based assets and applications.
